I have received a lot of estimates from everywhere. I went with this company because I felt that not only was I going to get a great system for the price but a great install also. You can have a good system but if it's not installed correctly it means nothing! (Won't perform properly) Mike really took the time and went over everything and was very knowledgeable in the products and the installation aspects. Very professional and just got a great vibe. That sold me and I can't wait for my new system to be installed and saving money on my electric bill is a plus! 😊

This is the second time I've called Turtley Awesome and I'm thoroughly impressed. A/C problems are always a headache but with their professional customer service I don't even break a sweat! Leonia was very polite and helpful with setting up a same day appointment and maintenance program for my system. Michael was prompt and professional - he will quickly diagnose your system and spend the extra time answering any questions you may have.

Mike arrived early and quickly diagnosed my A/C problem, then set about to fix the problem. When finished, he provided sage advice to prevent the problem from recurring. I highly recommend Turtley.

I was connected to Turtley HVAC by my home warranty. Mike arrived and surveyed my 22 year old system and determined it was time to replace both indoor and outside units. Condenser coiled had developed multiple leaks. One week later my new HVAC system arrived. Old system removed and new system installed in less than eight hours. Job well done.

Mike arrived timely, was very professional & friendly and walked me through the maintenance I can perform myself as well as repaired the part on the outside unit. Very knowledgeable. I will use them again & recommend them to anyone who needs their a/c serviced/repared/replaced. Thank you The King Team!

Mr King professional knows his business and handles customer with genuine niceness. Will work with your budget and not try to sell you something you really don't need. He gave excellent info about the products and let you make decisions. His installer was great worked through the day till job done. Was polite and even swept up when he finished. I received text messages telling me they were on their way. Mr King made me feel confident that they stand by their work 100% and if I did need then they would be there.

Michael is very professional and on time. Contact was excellent which included email, text and/or phone call to let you know his schedule time and when he is on the way. I highly recommend Michael and will be in contact to fix duct work.

I looked online for a company that could do an a/c check up for me. I called several that had good reviews but chose The King Team. I am so glad I did! After setting up an appointment I received a text and email that told me who was coming to my home that included a photo, the appointment information, what my appointment was for, what was included in the service and the cost. It also provided contact information for the company. I really liked that! Mike came out and started on my unit. He was very professional and kind. Mike also explained to me how the unit should run. Which I really do like knowing how certain things operate for my benefit as a homeowner. Mike stayed until he knew it was running the way it should. He even called me the next day to make sure things were still going good! I have never had a company do that! I will continue to use The King Team for my a/c needs! Thank you so much so such a wonderful business/customer experience!
